

# COLLEGE INTERNSHIP MANAGEMENT SYSTEM

SQL Database | Requirements Document

## 1. CRUD OPERATIONS

### ***Student Management***

Create: Register new student with email, password, name, phone, department, GPA | Read: View student profile, resume, application history | Update: Modify student details, resume, contact information | Delete: Deactivate student account

### ***Company Management***

Create: Add new company with name, registration number, location, contact person | Read: View company details, posted internships, ratings | Update: Modify company information and contact details | Delete: Archive or remove company from system

### ***Internship Management***

Create: Post new internship with title, description, domain, duration, stipend, start/end date | Read: View all internships with filters and search | Update: Edit internship details, status, application deadline | Delete: Remove or archive internship opportunity

### ***Application Management***

Create: Submit application with resume, cover letter, qualifications | Read: View application status, timeline, feedback | Update: Change application status to shortlisted/accepted/rejected | Delete: Withdraw application

### ***Interview Management***

Create: Schedule interview with date, time, interviewer details | Read: View interview schedule, results, feedback | Update: Reschedule interview, update results and comments | Delete: Cancel interview

### ***Evaluation Management***

Create: Create evaluation form with criteria and scoring | Read: View evaluations, ratings, and comments | Update: Modify evaluation scores and feedback | Delete: Archive or remove evaluation

## 2. DATA VALIDATIONS

- Email must follow RFC 5322 format, be unique across system, and verified
- Phone number: 10-15 digits, international format
- Password: Minimum 8 characters, must include uppercase, lowercase, numbers, special characters
- Resume: PDF format only, maximum 5MB file size, mandatory for applications
- Start Date and End Date: Start must be before end, future dates only
- GPA: Decimal between 0.0 and 4.0
- Application Status: Only valid values - pending, shortlisted, rejected, accepted, withdrawn
- Internship Duration: Minimum 4 weeks, maximum 6 months

- Duplicate Prevention: One application per student per internship
- Feedback Rating: Integer from 1 to 5 stars
- Company Registration Number: Must be valid and unique
- Interview Scheduling: Cannot schedule past deadline, must have at least 24 hours notice

### 3. ROLES & PERMISSIONS

#### ***Admin Role***

- Full system access and control
- Manage all user accounts - create, edit, deactivate
- Approve or reject internship postings
- View all applications and interactions
- Generate comprehensive reports and analytics
- Manage system compliance and policies
- Export and import data
- Monitor system health and performance

#### ***User Role (Faculty)***

- Post new internship opportunities
- View applications received for their internships
- Evaluate and rate student candidates
- Provide feedback on student performance
- Schedule and manage interviews
- View and respond to student feedback
- Generate reports for their posted internships
- Update internship details and status

#### ***User Role (Student)***

- Browse and search all available internships
- Filter internships by domain, company, location, stipend
- Apply for internships with resume and cover letter
- Track application status and timeline
- Upload and update resume
- View interview schedule and results
- Provide feedback on company and internship experience
- Rate companies and internships

## 4. REPORTS

### ***Admin Reports:***

- Placement Summary: Overall placement rate, total students placed, average stipend
- Application Analytics: Total applications received, acceptance rate, status breakdown
- Student Performance Report: Top performing students, most popular internships, completion rates
- Company Statistics: Most active companies, average ratings, student feedback summary
- System Activity: User registrations, login trends, data usage metrics
- Compliance Report: Policy violations, document verification status

### ***Faculty Reports:***

- Posted Internships: Number of postings, applications per internship, status breakdown
- Application Review: Total reviewed vs pending applications, shortlisting progress
- Student Evaluations: Evaluated students count, average ratings, feedback summary
- Interview Statistics: Scheduled interviews, completed interviews, success rate

### ***Student Reports:***

- My Applications: Total applications, status distribution, application timeline
- Interview Schedule: Upcoming interviews, past results, received feedback
- Placement Status: Current placement status, offer details

## 5. FEEDBACK & SUGGESTIONS

### ***Student Feedback:***

Students submit post-internship feedback using 1-5 star rating scale. Feedback includes questions about company culture, mentorship quality, technical learning opportunities, work environment, and overall experience. Open text field for detailed comments and suggestions. Track feedback trends over time to identify improvement areas.

### ***Company Feedback:***

Companies rate student performance on technical skills, soft skills, punctuality, responsibility, teamwork, and learning ability using 1-5 scale. Provide open comments highlighting strengths and areas for improvement. Include likelihood to hire full-time assessment.

### ***Faculty Feedback:***

Faculty provide feedback on internship suitability for course objectives, student learning outcomes achieved, internship quality assessment, and suggestions for improvement. All feedback tracked for quality assurance purposes.

### ***System Feedback:***

Users can submit suggestions for new features, report bugs with descriptions, and recommend platform improvements. Admin dashboard displays all feedback for review and analysis. Action items tracked for implementation of suggested features.
